How to enter the installation setting page

1. Touch icon on main menu page.
2. Touch button and hold for 2s.
3. A digital keypad will be shown.

How to set the monitor as a Guard Monitor

A Monitor can be assigned as Guard Unit Monitor; when the Guard Unit Monitor answers the call, conversation with the guard person is started.
The code number of 8004 is used to set the monitor as a guard unit monitor and 8005 is used to cancel this function.

How to set date and time format

The system offers two methods of date and time.
The code number of 8008 is used to set the date format as month/date/year
The code number of 8009 is used to set the date format as date/month/year
The code number of 8012 is used to set the time format as 12 hour system
The code number of 8013 is used to set the time format as 24 hour system
How to set the slave monitor address

Maximum 4 monitors can be connected in one apartment, one master monitor together with 3 slave monitors, so you should set the address correctly. (note: must have one monitor to be set as master monitor)

The code of 8000 is used to set the master monitor.
The code of 8001 is used to set the first slave monitor.
The code of 8002 is used to set the second slave monitor.
The code of 8003 is used to set the third slave monitor.

How to set the monitor panel on

In default mode, when receive a calling, the master and slave monitors will ring at the same time, and just the master monitor can display the image while the slave monitors can not. But the settings can be changed, you can set the master monitor and all the slave monitors to panel on at the same time when receiving a call, just input the code number of 8006 on each slave monitor.

How to set the unlock parameter

Unlock mode:

There are two unlock modes: 1.power-on-to-unlock type: unlock mode=0 (by default)
2.power-off-to-unlock: unlock mode=1.

The code number of 8010 is used to set the unlock mode to 0
The code number of 8011 is used to set the unlock mode to 1

Unlock time:

The unlock time can be changed by yourself at any time. It can be set from 1 to 99 seconds.
The code number from 8401 to 8499 are used to set the unlock time to 1~99 seconds.
How to set the user code for the monitor

In the DT system, every apartment must have a unique identification called User Code. The DIP switches are used to configure the User Code for each Monitor.

- Bit-1 to Bit-5 are used to User Code setting. The value is from 1 to 32, which have 32 different codes for 32 apartments.
- When multi Monitors are installed in one apartment, these Monitors have to use the same User Code setting, and the Master/Slave mode should be set on the Monitor.
- Bit-6 is line terminal switch, which have to be set to ON if the Monitor is in the end of the line (bus), otherwise set to OFF. The end of the line is terminal that no other section will start from it.

14. Specification

- Power supply for indoor monitor: DC 20~28V
- Power consumption: Standby 12.4mA; Working 270mA
- Monitor screen: 7 Inch digital color LCD
- Display Resolutions: 800*3(R, G, B) x 480 pixels
- Video signal: 1Vp-p, 75Ω, CCIR standard
- Wiring: 2 wires, non-polarity
- Dimension: 139(H) × 212(W) × 15(D)mm

15. Precautions

1) All components should be protected from violence vibration. And not allow to be impacted, knocked and dropped.
2) Please do the cleanliness with soft cotton cloth, please do not use the organic impregnant or chemical clean agent. If necessary, please use a little pure water or dilute soap water to clean the dust.
3) Image distortion may occur if the video monitor is mounted too close to magnetic field e. g. Microwaves, TV, computer etc.
4) Please keep away the monitor from wet, high temperature, dust, caustic and oxidation gas in order to avoid any unpredictable damage.
5) Must use the right adaptor which is supplied by the manufacturer or approved by the manufacturer.
6) Pay attention to the high voltage inside the products, please refer service only to a trained and qualified professional.
The design and specifications can be changed without notice to the user. Right to interpret and copyright of this manual are preserved.
